CIV-21-141-G

FEB 22 2021

George Edward Sisk

vs

Cimarron CorrectionalCARMELITA REEDER SHINN, CLERK
U.S. DIST. COURT, WESTERN DIST. OKLA.
BY JKH, DEPUTY42 USC 1983 civil claim

1 Petitioner George E. Sisk was sent to Cim.
 2 Corr. Facility on 1/29/2021... Once ~~entering~~ entering
 3 the Facility with other inmates inmates started complaining
 4 about the top bunks was too high to get on. Inmates
 5 started jumping from the table as we were offered
 6 from the Corr. Staff, or to use a chair. Some inmates
 7 fell to the floor trying to jump from the tables.
 8 Other inmates get help from cellmates. If we can't
 9 get on the bunks then we will sleep on the floor
 10 which most times the cell is with three inmates.
 11 These bunks need ladders and this is an urgent
 12 move that must be made. Inmates are not trying to
 13 be housed on the floor while other inmates are
 14 in bunks. Inmates are starting to take a stand against
 15 the Guards which is a threat to the Facility staff
 16 and other inmates this is imminent danger which
 17 must be addressed. Please make an injunctive relief
 18 to south this situation before this gets any further.
 19 This is a tort on this facility, and a lot of us inmates
 20 have mental illnesses trying to jump on the top bunk.

21 Petitioner was sent from MCC (New York) to be placed
 22 here to await to be sent back to Indianapolis, Indiana. Petitioner
 23 along with other inmates had to wait on the Plain to arrive
 24 which was a two hour wait. Petitioner and other inmates

25 left MCC at or around 7:00 AM and boarded the
 26 plain about 10:00 AM. Once on the plain inmates had to
 27 piss (use the rest room) ~~but~~ The officers allowed inmates
 28 to use the rest room ~~with~~ with handcuff and shackles
 29 on with casset cuts in the wrist. Petitioner then had
 30 to eat ~~a~~ a sake lunch with hands cuffed and
 31 shackled which causes cuts in wrist as well. Once
 32 the plain ended inmates about or around 6 pm or 7 pm
 33 inmates had to take a ride on a bus for 2 hours
 34 then once making it to the facility inmates had
 35 to sit on the bus for another 2 hours or so with-
 36 out any rest room ~~breaks~~ breaks brakes.

37 Petitioner was prescribed medication from MCC by
 38 Dr. MBahly. Once leaving the facility at MCC I
 39 was told by officers that I had medication and
 40 they would be sent with me. Now that I've been
 41 here for three days the medical staff has not sent
 42 me any medication. I've asked why I'm not receiving
 43 medication the officers state that the facility the
 44 facility did prescribe medication but nothing is on
 45 the cart. And that they can not find the other
 46 part of the paper but I am suppose to take
 47 medication. Petition ~~is~~ was sent to MCC for ~~eye~~
 48 mental health problems, And pain. Now my
 49 Body is in pain and my mind feels like I've
 50 been shocked in the brain need my medication
 51 can you make an order on an Injunctive relief
 52 ordering this facility to had out medication which
 53 is prescribed.

54 All Acts is done under the color of law--

53 Petitioners trays for food has not been hot... Everytime
56 food is brought over to the housing unit they are cold
57 and they sit out in the day Room over 1 hour
58 each time. Inmates are starting to complain... Complaining
59 turns into inmates refusing to lock down. Food gets
60 passed out through a line that inmates form. All
61 we (inmates) have to say is a cell number and
62 receive a tray. ~~It~~ there is no ID's required to re-
63 ceive these trays and some of us inmates has to wait
64 on trays for hours at a time. Sometimes even have
65 to eat different meals because of the delay. This
66 facility needs to get the chow line more orgized
67 so that inmates will have their food at a
68 timely manner and that there be inmates with
69 the officers when the food is being made. All the
70 trays are stacked on top of each other. Officers and
71 inmates has to carry the trays up the steps on
72 a Card Board. Please adhere to this dire need of
73 Structure.

71 Petitioner has been here for three (3) days. Since
 75 I've (Petitioner) been here I have not seen any law library
 76 nor any law library computer that I can use to
 77 find legal petition to file to the court. This facility
 78 is without access to a Reading library, they say that in-
 79 mates are not going to be housed here long enough to
 80 use any of those federal requirements so therefore they
 81 do without. I'm asking that inmates be housed here need
 82 all those requirements so that we can keep up with the
 83 new laws and reading material. Handbook states that
 83 1/2 books can be checked out nothing shows a library.

84 Petitioner has been housed here for over 3 days
 85 and the inmates are allowed to watch TV but
 86 all channels stay on the same channel as if
 87 we have to watch what the staff has to watch.
 88 Inmates are not being credited for the good deeds of
 89 staying out of trouble. This isn't a max prison
 90 where people is doing life, inmates should have access
 91 to outside recreation as well to the gym. The Co vac 19
 92 hasn't been a big problem here since I've been here so
 93 outside recreation shouldn't be a problem.

94 Petitioner has been exposed to inmates on a daily with
 95 an Co vac 19 pandemic attacking adults, There are unsafe
 96 conditions that they have us in because there is no
 97 vaccine that's people can take. Petitioner has had one
 98 shot, and on the 11th of February Petitioner needs
 99 to take another shot. Petitioner is asking that you make
 100 this facility with those shots so that we will be prepared
 101 for other housing since this is just a holding facility
 102 and not a permanent housing. The Government need to have
 103 people more safer than that.

104 Petitioner has a pain in his mouth. Petitioner
 105 tooth needs filled and the only thing this facility
 106 has to offer is I B U's... This ~~state~~ facility
 107 dental is covered for full dental. I'm asking you
 108 to have this facility officers take me to an outside
 109 center to get my teeth filled because of
 110 the pain. It's hard to drink cold water.

111 Petitioners 14th Amendment of the US constitution is
 112 being violated... Not following Policy & Procedures...

113 Petitioners 8th Amendment is being violated. Deliberate ~~indifference~~
 114 indifference to my mental illness, Cruel and unusual ~~pen~~
 115 punishment, Confining petitioner longer than needed...

116 ~~Petitioners~~ Respondants are in violation of the
 117 Rehabilitation Act etc.

118 Respondants are in violation of the ^{10th and 11th} ~~10th~~ Amendment
 119 for changing what was written at MLC about medication
 120 And the way the prison system is run under pre law.

121 Respondants committed a Tort under tort claim Act
 122 Respondants has also committed Mal Practice for
 123 the Acts committed.

124 ~~Respondants~~ Respondants are being sued on its official
 125 capacity...

126 Wherefore, Petitioner Requests

127 of \$700,000 for cause of Action \$500,000 for tort
 128 under tort claim Act.

12a. Petitioner request 10,000,000,000 for the ~~the~~ Act done under the Rehabilitation Act.

Petitioner request any other remedy that this court deems appropriate with this court.

George E. Sisk Thank you
